

WE SPEAK THE LANGUAGE OF QUALITY

# COMMITTED TO UNMATCHED QUALITY...

We, Jinmata Food Processors LLP, are ISO 22000:2018, HACCP and HALAL certified company. We are well-known Manufacturer of Spray dried Fruits, Vegetables and other food powders. We have an expertise in developing and producing qualitative range of pure and natural fruits and vegetable powders. Quality is of utmost importance to us and we have incorporated an in-house quality control system to supervise our products and keep them fit for consumption by meeting the set food quality standards. The cornerstone of the Dhule based Jinmata Food Processors LLP was laid in the year 2014. We have sprawling over an area of 11400 Sq. Mtr. with excellent Infrastructure facilities and monthly production capacity of upto 100 metric ton. Our infrastructure has Processing Unit, Production Unit, Quality Unit, Storage Area, Packaging Unit and Shipping Unit.

## Our Goal

We, at Jinmata Food Processors LLP, wants to build a long term partnership with all stakeholders in supply chain by providing excellent product range. We want to be known as most quality oriented and product innovation driven.

# Our Quality

We are having our own quality control team which facilitates us to maintain quality standard as set norms. We have advanced range of laboratory equipment in addition to Microbial Laboratory for our fresh produce to control and supervise the quality of product. We follow strict food quality norms and Our skilled staff maintains product quality from sourcing to delivery of products.

The packaging is also a bigger concern and we use best quality packing materials, machineries and techniques so as to maintain freshness, aroma and taste of products throughout its journey to end user.

# THE JINMATA ADVANTAGE

### **GEOGRAPHICAL ADVANTAGE**

Our Dhule-based manufacturing is connected via three important national highways i.e. NH 3, NH 6 and NH 211. This gives us natural logistic advantage to deliver goods to different parts of the country.

### INFRASTRUCTURE ADVANTAGE

Our current production capacity is upto 100 metric tons per month and we still has scope to double our production capacity with same infrastructure. Apart from production we also have surplus and healthy land bank which could easily be used for future expansions.

### AGRICULTURAL ADVANTAGE

Dhule city comes in Khandesh region which is an agrarian belt. This enables us to procure fruits and vegetables like Tomato, Tamarind, Lemon, Green Chilli, Mango, Pomegranate, etc. within 100 KM radius.

### PRODUCT ADVANTAGE

The raw materials are available throughout the year which leads to unlimited top line scope. Our product range has multiple end uses and could be used in Food Industry, Nutraceutical Industry as well as Cosmetic Industry.

# SPRAY DRIED FOOD INGREDIENTS

# What Is Spray drying?

A spray drying system employs a single process to convert a solution/slurry into a powder. The liquid is sprayed in a specially designed Drying Chamber, into a stream of hot air to evaporate the slurry. The dry powder is then separated from the air stream.

### **Benefits**

Natural color retention Natural flavor retention Increase in product shelf-life Easy material handling
